Shred WA

Shred WA was designed to be the one stop weather application to help you shred the great state of Washington by helping find Ski Resorts and Mountain Bike Trails and includes the current weather as well as a forecast.

Shred WA was built with AngularJS, Sails, MongoDB, Bootstrap, Trails.API, and OpenWeather API

WEcycle

WEcycle is a community driven application to connect individuals who are interested in recycling with each other. Users can post their reuse ideas as well as search their address to find out what dates their recycling needs to be taken to the curb.

WEcycle was built with Ruby on Rails and utilizes Rest Client to pull calendar information from Seattle.gov.

Price-is-Right

The Price-Is Right is a two-player consumer trivia game based off of the long running show of the same name. Players take turns to guess the price of an item and the first to 10 answers wins! Price-Is Right is an application built on pure Javascript.
